

OVATION AT FLORA PARK  
INSTRUCTIONS FOR THE “VIAL OF LIFE”

Emergencies are unplanned events. The key is to be prepared!  
You can help yourself and the health care system by completing  
the following information.

1. Fill out the **“Vial of Life” Sheet** and place it in an empty prescription vial or a baggie.
2. Place the vial, or baggie, containing your completed medical information on the door inside the refrigerator.
3. Place the **Red Dot Sticker** on the outside of the refrigerator so it can be seen by medical personnel.
4. Place the second **Red Dot Sticker** on the vial, or baggie, inside the refrigerator to enable emergency personnel to quickly locate it. They are trained to look for the “Vial of Life”.

The **Red Dot Sticker** can be gotten from Ron Glassman at:

Brooklyn.Ron1@Verizon.net

This form will provide valuable information about you to emergency services personnel (ambulance paramedics, law enforcement, firefighters and hospital personnel). The **Red Dot Sticker** will alert emergency services that you have the “Vial of Life” medical information in the refrigerator.

Note: It is recommended that you fill out the medical section in pencil since this area changes often.
